PERSONAL PROFILE

A qualified and driven software engineer with experience in React .js JavaScript, HTML, and CSS who specializes in front-end development. Devoted to improving user experiences on both mobile and computer interfaces. Utilizing simplicity and minimalism concepts to increase user engagement and adaptability of the applications and websites that I create. I have designed a numbers of websites for both the average citizen and the government itself one of them includes the Uganda Surveyors Registration Board that keeps track of all the qualified Surveyors we have in the country. This web application Provides a list of all those that have been registered. Important documents can also be accessed and downloaded from it that the users might need. The link "<https://srb.go.ug/>". I am proficient with a variety of ICT tools and programs, such as the Microsoft Office Suite, Windows maintenance tools, and other frequently used software. I endeavor to keep up with the most recent technical developments to guarantee work execution at its best.
